

# BIO

Tom Lumen is a great entertainer and connects with his fans exceptionally. As well as being a remarkable solo guitarist, his charming personality and joyful stories instantly grabs the full attention of the audience. His performances are characterized by intimacy and interaction, as well as virtuosity and cheerfulness.

His single instrument evokes the sound of an entire band with his dynamic playing style. His fingerstyle playing technique allows him to perform various musical elements simultaneously that would normally be played by several band members: bass, harmonic accompaniment, melody, rhythm and drum beats.

In his diverse program, energetic and pleasing songs are interwoven with romantic harmonies. Besides the impressive and distinctive sound of his own compositions, he plays well-known favourites by famous musicians and bands such as Queen, Nat King Cole, The Beatles, Billy Idol.

In addition to giving concerts in big cities throughout Hungary, Tom has also performed in Vienna, Berlin and Bratislava. He has also been invited to perform at the London Guitar Night and the Dublin Guitar Night in 2016. He is very proud of having shared a stage on two occasions with Tommy Emmanuel while the world famous guitarist was on tour in Hungary in March 2014.

Tom is an endorsed artist of AER Amps (the world's best acoustic amplifier manufacturer).
